

PCL has established a new Depot in Hong Kong in September 2018. The new depot code is PCLC8 with a total area of 25,500 square meter. It has a total capacity of 4000 TEU for empty containers and 800 TEU for laden containers. PCLC8 is conveniently located near Terminal 8 of Kwai Chung port area and has a 120 meter long berth that can provide in/out service on the waterfront. The ground structure of the new depot is made of concrete, bricks and asphalt which provides a safe and good working environment. The containers in PCLC8 are properly stacked and segregated by customers, status and types.
