

Every year, we look forward to celebrating Children's Day with [Seaco](#) at [MINDSG Ltd](#), and this year was no exception!

On October 2nd, we created unforgettable memories alongside the amazing students. The day was filled with joy as the children played with bubbles, jumped on the bouncy castle, explored game booths, and enjoyed wonderful performances. We were honored to assist these incredible teachers with manning the play stations and engaging with the students, ensuring every child had a fantastic time.

A big shoutout to Seaco for inviting us to this wonderful program again. We had so much fun and learned more about the vibrant community of children with learning difficulties. We can't wait to do it again next year. Happy belated Children's Day!
